VACUUM EXTENTION WANDS, ADAPTERS, AND FLEXIBLE COUPLING HOSES

These durable conductive plastic attachments increase the length or change the angle of your cleaning attachments, increasing your cleaning efficiency in hard to reach areas such as window sills, door ledges, or around belts and rollers. All featured attachments meet the Statically Dissipative U.S. Postal Service Range.

Compatible with 1 1/2" cuff or primary wand.

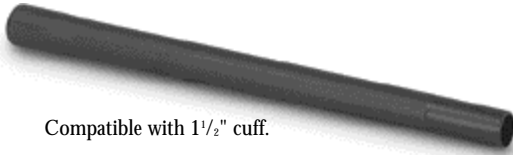

Wand Adapted With Vacuum Release

Curved Handle Wand

This Curved Handle Wand features a vacuum release valve and fits directly into a 1 1/2" hose cuff. This unit interfaces with a 19" primary wand (N1023364) and a 14" extension wand (N1023362). Works with a 9" crevice tool (N1023033), a 5" horizontal crevice tool (N1023375), and a 3" brush (N1023034). This unit is constructed of 10⁶ to 10⁷ conductive plastic. Wand meets Statically Dissipative USPS Preferred Range.

eBuy #	Model #	Description	Quantities	Price
58598	N1023376	Curved Handle Wand	Each	\$7.80

Compatible with 1 1/2" cuff.

Primary Wand

The 19" Primary Wand fits directly into a 1 1/2" hose cuff and interfaces with a 14" extension wand (N1023362), a 17" crevice tool (N1023415), a 9" crevice tool (N1023033), a 5" horizontal crevice tool (N1023375), and a 3" brush (N1023034). This unit is constructed of 10⁶ to 10⁷ conductive plastic. Wand meets Statically Dissipative USPS Preferred Range.

eBuy #	Model #	Description	Quantities	Price
58438	N1023364	Primary Wand	Each	\$6.90

Extension Wand

The 14" Extension Wand fits into the 19" Primary Wand only and interfaces with the 17" crevice tool (N1023415), the 9" crevice tool (N1023033), the 5" horizontal crevice tool (N1023375), and a 3" brush (N1023034). This unit is constructed of 10⁶ to 10⁷ conductive plastic. Wand meets Statically Dissipative USPS Preferred Range.

eBuy #	Model #	Description	Quantities	Price
58599	N1023362	Extension Wand	Each	\$5.90

Compatible with primary wand.

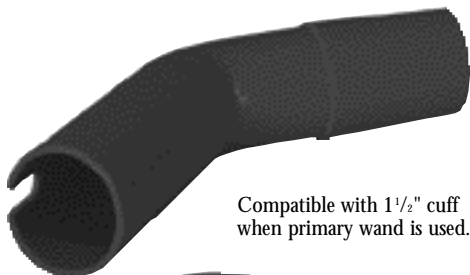

Adjustable Angle Adapter

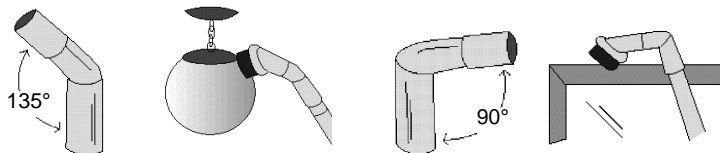

Attach the end of this Adjustable Angle Adapter that will fit your vacuum hose and then set the angle to reach the hard to get at places. At the 135-degree angle, the adapter is perfect for most jobs. For the really tough jobs, spin it to be used in the 90-degree position to reach the hidden or hard to reach areas such as window edges and doorsills. Works well with crevice tools and round brushes. The Adjustable Angle Adapter is ideal for use in cleaning DBCS sorters. The adapter inlet fits the N1023364 Primary Wand or the N1023607 Universal Adapter (1 1/4" to 1 1/2"). Outlet dimensions: 1" ID, 1 1/4" ID.

Ebuy #	Model #	Description	Quantity	Price
58905	N1023606	Static Dissipative Angle Adapter, Adjustable	each	\$11.80

Compatible with 1 1/2" cuff when primary wand is used.
